

Promote Energy Efficient Design, Development, and Practices

Assist the City in leading by example in energy conservation, renewable energy, and proactive building management by: Reviewing other communities' plans and best practices; Helping to craft a City Energy Plan; Providing technical assistance and training to City staff.

Group Names:

Bremer	David	drbremer@nisource.com
Geels	Jonathon	jsg@troyergroup.com
Herczeg	Scott	scottH@centurycentury.org
Keen	Mike	mkeen@iusb.edu
Kempf	Paul	Paul.A.Kempf.2@nd.edu
Robinson	Mark	mrobinson@aep.com
Stewart	Zachary	zmagic98yahoo.com
Williams	Austin	austin.williams@inovateus.com

Students (Fall, 2015):

Elizabeth Morse, epmorse00@gmail.com; Greg Frushour, gfrushou@iusb.edu; Dima Allan, dima_3llan@hotmail.com

Suggested Strategy or Approach

- New construction/building for energy efficiency and solar
- Open houses for current sustainable buildings
- Community solar for neighborhoods (East Bank, vacant lots)
- LEED certification incentives (Provide free permitting)
- Discounts (i.e. – property taxes) for energy practices
